AD Education Objectives

- The main objective for IFF has been to spread the Anti-Doping information and increase the general awareness of the risks of using doping and the Rules & Regulations guiding these matters.
- We have chosen to include the education for the Top Athletes at the main IFF Events (Adult WFC, U19 WFC and Champions Cup)
- The other part we are working with is the education of the athletes at large, at the IFF Events, through the cooperation with the NADO’s and their campaigns in the IFF Say NO to Doping ! Outreach campaigns.
- The Education to the National Associations has been dealt with in the IFF Development Seminars, held annually and at the sessions at our Associations meetings
- One of the objectives is now to shift the Education more into the hands of the National Associations for the general public

Activate the Stakeholders:

- In order to raise the Players and Spectators awareness and the interest to the question, we are using the players to promote the SNTD campaign.
- The SNTD Green Balls are on the field during warm-up and the starting line-up throws the balls to the spectators before the start of the game.
- Also 5 players in each team receives a SNTD wristband, which they are asked to use.
